

# OARS Couple's Nights 2011

*Last year we decided to try a couple's night where couples floated on the Allegheny River with their significant others. When they arrived at their destination, a steak dinner and bottle of wine awaited them. We had such a great response and request for more, that we have decided to listen to our customers and implement a once a month couple's night.*

*Our couple's nights are designed with you (our customer) in mind. We want it to be romantic, relaxing, and fun. Where you can meet other couples as well as share memories with ones you may already know for a unique and regular date night.*

*As usual, we will meet at OARS for registrations before taking off for the float. Once you reach your destination a steak dinner, bottle of vino and a fire will all be waiting for you. Our cost is \$60.00 if you need to rent our gear.*

*Anyone who has floated with us before knows that between the sights, the mood, the atmosphere and the moment; words cannot describe the whole experience. So come! Be a part of what people are talking about and enjoy our waterways, the outdoors, and other people.*

*Check out our website for dates! [www.oarsontheallegheny.com](http://www.oarsontheallegheny.com)*

*See you on the river." ~JB*
